1. Introduction

1.1 Purpose of This Document:

This user manual provides step-by-step instructions for navigating and using the HELP (Healthy End of Life Planning) Web App. It is designed to assist a wide range of users—including members of the public, researchers, and system administrators—in understanding the platform’s features, roles, and intended use.

1.2 About the HELP Platform:

The HELP Web App is a browser-based application designed to assess and improve death literacy within the community. Through a guided quiz and personalized feedback, the platform helps users reflect on their preparedness and knowledge around end-of-life planning. The app is built with a focus on accessibility, user-friendliness, and real-world impact. Administrators and researchers can analyze data trends and manage content securely through a dedicated backend panel.

1.3 Target Audience:

- **General Public:** Individuals seeking to assess their death literacy through a simple quiz interface.
- **Authenticated Users:** Registered participants who wish to view detailed feedback and download personalized reports.
- **Admins & Researchers:** Authorized users who need to manage quiz content, export submissions, or view analytics for research or organizational purposes.

1.4 System Requirements

- **Internet Connection:** Required for accessing and submitting the quiz.
- **Web Browser:** Google Chrome, Mozilla Firefox, Safari, or Microsoft Edge (latest version recommended).
- **Device Support:** Fully responsive across desktops, tablets, and smartphones.
- **Optional:** PDF viewer for reading downloaded feedback reports.

1.5 Document Conventions

- **Click** refers to selecting an element using a mouse or tapping on a touchscreen.
- **Navigation bar** refers to the top menu visible on all pages.
- UI elements like buttons, dropdowns, or tabs are **bolded** for clarity.

1.6 Version History

Version	Date	Description
1.0	June 2025	Initial release of the HELP User Documentation

2. Getting Started

This section guides users through accessing the HELP Web App, signing in, and preparing to take the quiz.

2.1 Accessing the Platform:

To begin, visit the official HELP Web App homepage using a supported web browser.

Figure 2.1.1: HELP Web App landing page.

2.2 Signing in with Google

The platform supports secure login using Google Sign-In only. No password is required.

Steps:

1. Click on **Login** in the top-right corner.
2. Choose your Google account and authorize access.

Figure 2.2.1: Google Sign-In screen for HELP Web App.

Once logged in, you'll be redirected to your personalized dashboard.

2.3 Profile Setup

After logging in for the first time, users can enter basic profile details such as:

- Name
- Phone Number
- Picture

This helps personalize the feedback and enable comparison with similar user groups.

Figure 2.3.1: Profile setup screen.

2.4 Navigating the Interface

The platform provides a simple, clean layout with the main menu located at the top.

Key navigation links include:

- **Logo** – Takes to homepage
- **About Us** – View detailed information about the organisation
- **Quiz** – Start or resume the assessment
- **Resources** – View helpful articles and support links
- **Contact Us** – Email the organisation about queries
- **My Account** – Update your profile or logout
- **Admin Panel** – (Admins/Researchers only)

Figure 2.4.1: Authenticated user dashboard with navigation.

2.5 Supported Devices and Browsers

The HELP Web App is fully responsive across modern devices.

Platform	Supported	Notes
Desktop (Windows/macOS)	✓ Yes	Recommended for best experience
Tablet (iPad, Android)	✓ Yes	Fully supported, minor layout tweaks may occur
Mobile (iOS/Android)	✓ Yes	Accessible, though some elements may be more compact

Recommended Browsers:

- Google Chrome (latest)
- Mozilla Firefox
- Safari (latest)
- Microsoft Edge

Responsive layout screenshot

3. Using the Platform

This section explains how users interact with the HELP platform based on their role, including quiz functionality, result interpretation, and downloadable reports.

3.1 Public User Capabilities

Visitors who have not logged in are considered **Public Users**. They can:

- View the landing page and navigate through **About Us**, **Resources**, and **Contact** sections.
- Read about the purpose of the platform and its benefits.
- Submit the Contact Us form to ask questions or leave feedback.

! Public Users **cannot** access the quiz or any personalized results.

Public landing page highlighting non-interactive state

3.2 Taking the Quiz (Authenticated Users)

Once logged in, users gain access to the full interactive quiz.

Steps:

1. Click **Start Quiz** from the dashboard or navigation bar.
2. Answer 25 grouped questions (with 29+ sub-questions), including Likert scales, dropdowns, and conditional logic.
3. Navigate forward using the **Next** button. A progress bar shows completion status.
4. You may **pause/close** the browser and resume later (auto-saved on the same device).

Question 1 of 25

Country of residence

Country of residence

21	22	23	24	25

First quiz question screen

3.3 Reviewing and Editing Responses

Before final submission:

- Users can **review all responses** on a summary page.
- Use the **Edit** button next to any question to go back and change an answer.
- Unanswered required questions will prompt a reminder to complete them.

Review Your Answers

Question 1: Country of residence
Albania Edit

Question 2: Which of the following best describes where you live?
Urban area Edit

Question 3: What age group do you belong to?
18 - 24 years Edit

Question 4: Please indicate your gender
Man/male Edit

Question 5: Are you currently living with a terminal illness?
Yes Edit

Go Back Submit Quiz

Review screen with Edit buttons

3.4 Viewing and Downloading Results

Once the quiz is submitted:

- Users are presented with a **results dashboard** showing scores across four SEAK domains:
 - o **Skills**
 - o **Experience**
 - o **Action**
 - o **Knowledge**
- Color-coded scores (**WIP**):
 - o ■ Red = Low literacy
 - o ■ Yellow = Moderate
 - o ■ Green = High

Users can:

- Read per-domain feedback and improvement tips.
- Click **Download Report** to save a PDF with AI-generated suggestions.

Results page with score breakdown

3.5 Role-Based Access (Admin / Researcher)

Admins and Researchers have additional permissions:

- **Admin** users can:
 - o Manage quiz questions
 - o View/edit/delete user submissions
 - o Manage admin/researcher accounts
- **Researchers** can:
 - o Access anonymized submission data
 - o Use filters and analytics tools for demographic insights

Both roles see a special **Admin Panel** in the navbar.

Admin Panel dashboard

4. Administrator Guide

This section outlines the features and tools available to Admins and Researchers via the Admin Panel. These users are responsible for managing platform content, accessing user data, and conducting analytics.

4.1 Accessing the Admin Panel

Admins and researchers will see an **Admin Panel** link in the top navigation bar once logged in.

Steps:

1. Click on **Admin Panel** in the navigation bar.
2. You'll be redirected to a dashboard with management tabs:
 - o Submissions
 - o Manage Questions
 - o Manage Admins
 - o Analytics
 - o AI Insights (optional)

Figure 4.1.1: Admin dashboard layout.

4.2 Managing Quiz Questions

Admins can:

- Add new questions (including sub-questions and conditional logic)
- Edit existing questions (text, type, category, etc.)
- Delete outdated or incorrect questions

Each question supports:

- Multiple formats (Likert, MCQ, select, text)
- Domain tagging (SEAK)
- Conditional sub-questions

Figure.0;8;8;Question.List

Figure.0;8;8;Admin.-.Editing.a.quiz.question;

4.3 Viewing and Exporting Submissions

Admins and researchers can:

- See a table of all quiz responses
- Filter by date, region, score range, or domain

- View individual submission details (answers, scores, time)
- Export data to CSV for offline analysis

Submission ID	Name	Email	Region	Area (Q2)	Age (Q3)	Score	DLI Score	Date	Action

Figure 4.3.1: Admin – Quiz submissions overview.

4.4 Managing Admin/Researcher Accounts

Admins can:

- View all admins and researchers
- Add new team members by email and assign roles
- Edit or remove existing users

Name	Email	Role	Actions
Admin	admin@help.com	Admin	View Edit Delete
ab	abcc@help.com	Admin	View Edit Delete
Researcher	researcher@help.com	Researcher	View Edit Delete

Figure 4.4.1: Manage Admins page.

4.5 Viewing Analytics & Trends

Admins/Researchers can view visual analytics including:

- Average domain scores
- Score distributions by region
- Death Literacy Index trends
- Submission activity over time
- Radar charts for SEAK domain benchmarking

Figure 4.5.1: Analysis Filter

Figure 4.5.2: Analytics based on different criteria and factors

Figure 4.5.3: Score trends across regions.

4.6 Updating the Benchmark Values

The HELP Web App allows administrators to update **benchmark values** that are used to compare individual user scores against population averages in the results dashboard. These benchmarks are stored in the **score interpretation module** and directly influence the **domain-level feedback** users receive (e.g., SEAK scores – Skills, Experience, Action, Knowledge).

Accessing the Scoring Criteria Panel

1. **Login** using an Admin account.
2. Navigate to the **Admin Dashboard** via the top navigation bar.
3. Click on the **“Scoring Criteria”** or **“Interpretation Settings”** tab (name may vary).
4. A list of domains and score thresholds will be displayed.

Editing Benchmark Ranges

Each domain (e.g., *Talking Support*, *Factual Knowledge*) has:

- A **score range** (e.g., 0–3 = Low, 4–6 = Moderate, 7–10 = High)
- A **label**
- An **interpretation message**
- A **recommendation/tip**

To update a benchmark:

- Click the **“Edit”** button next to the relevant domain entry.
- Modify the **score range boundaries** or **associated messages**.
- Click **“Save”** to apply the new logic.

The system will now use the updated scoring interpretation logic for all future quiz submissions.

Figure 4.6.1: List of Benchmark Domains

Figure 4.6.2: Benchmark values being updated.

4.7 AI Insights Panel (WIP, Not enabled Yet)

If enabled, this section shows:

- Simulated or GPT-generated insights based on submissions
- Suggestions for resource recommendations
- Per-domain performance summaries

5. Known Issues & Tips

This section highlights current limitations or bugs within the HELP Web App and provides workarounds, along with helpful usage tips for all user types.

5.1 Known Issues & Workarounds

Issue	Description	Workaround / Status
Quiz progress resets if browser is closed or refreshed	In some browsers, in-progress quizzes may not resume properly.	Resume feature works best on the same device and browser. Auto-save update planned.
Download Report button fails in older browsers	In older versions of Safari or Internet Explorer, the button may not trigger download.	Use the latest version of Chrome or Firefox.
Admin filters lag on mobile	Admin dashboard filters may become slow when handling large data.	Use desktop for bulk data operations.
Analytics page slow with >1000 submissions	Performance drops when loading large data visualizations.	Use CSV export for heavy analysis. Optimization in progress.
UI layout shifts on very small screens	Some elements (Likert scales, buttons) may misalign on small mobile screens.	Best experience on tablet or desktop.

5.2 Tips for Smooth Experience

For All Users:

- Use a **desktop browser** (Chrome or Firefox) for the best experience.
- Complete the quiz in one go if possible to avoid resuming issues.
- Read the feedback carefully — each domain gives practical advice.
- Download and save your feedback report for future reference.

For Admins/Researchers:

- Regularly **export CSV data** to keep a local backup.
- Use filters (date, region, domain) to segment results for research.
- When editing questions, always preview the quiz after changes.
- Assign roles cautiously to maintain data integrity and access control.

6. Glossary & Version History

This section defines key terms used throughout the platform and tracks major updates to the system.

6.1 Glossary of Terms

Term	Definition
Death Literacy	A person’s knowledge, confidence, and skills to understand, discuss, and manage issues around dying and bereavement.
SEAK Domains	Four thematic domains assessed in the quiz: S kills, E xperience, A ction, and K nowledge.
Likert Scale	A five-point scale (1–5) used to measure agreement or sentiment (e.g., Strongly Disagree to Strongly Agree).
Conditional Logic	Quiz functionality that shows sub-questions based on specific previous answers.
Authenticated User	A registered user who has logged in and can access the quiz, results, and reports.
Admin Panel	A secure dashboard used by admins and researchers to manage quiz data, questions, and analytics.
AI Feedback	GPT-based customized suggestions generated after quiz completion.
CSV Export	The ability to download data as comma-separated values for external use and analysis.

6.2 Version History

Version	Date	Changes Made
1.0	June 2025	Initial release: core quiz, user login, PDF reporting, basic admin tools
1.1	Planned	Add proper ai support for result; mobile layout fixes
1.2	Planned	Introduce accessibility features (audio narration, larger fonts)
1.3	Planned	Role-based analytics and enhanced filtering in Admin Panel
1.4	Future	Benchmark comparison insights and multilingual support
